

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission****[Docket No. RP98-414-000]****Florida Gas Transmission Company; Notice of Proposed Changes in FERC Gas Tariff**

September 28, 1998

Take notice that on September 23, 1998, Florida Gas Transmission Company (FGT) tendered for filing to become part of its FERC Gas Tariff, Third Revised Volume No. 1, the following tariff sheets, effective October 23, 1998:

Second Revised Sheet No. 114
Third Revised Sheet No. 115
Third Revised Sheet No. 166
Sixth Revised Sheet No. 169
Fourth Revised Sheet No. 174A
Original Sheet No. 174B

FGT states that in the instant filing, FGT is proposing revisions to the provisions currently contained in Section 9 of the General Terms & Conditions (GT&C) of FGT's Tariff regarding electronic communications of certain transactional and non-transactional data. Specifically, FGT proposes that the electronic communication provisions that are transactional in nature and related to capacity release be included in the capacity relinquishment provisions of Section 18 of the GT&C of FGT's Tariff in a new Section 18.L, "Capacity Release—Transactional Electronic Communications." Such electronic communications of capacity release data will continue to be made available through FGT's Electronic Bulletin Board (EBB), which now can be accessed through the Internet's World Wide Web (Web) in addition to the proprietary phone connections currently maintained by FGT. FGT states that the access to the EBB through the proprietary phone connections will continue only for an interim period, probably until January 1, 1999, at which time these phone lines will be discontinued.

FGT states that it believes that access via the Web will be more efficient and cost effective for FGT and users. Additionally, FGT states that Section 9 of the GT&C is renamed "Electronic Communications of Non-Transactional Data" because the remaining provisions of Section 9 relate to non-transactional data such as notices. This non-transactional Electronic Communications Mechanism section specifies information to be posted by FGT, and the mechanism would be

accessible via the Web. Such information posted by FGT would include, but not be limited to, all non-transactional information currently provided for in Section 9.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

David P. Boergers,
Secretary.

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission****[Docket No. RP98-401-001]****Iroquois Gas Transmission System, L.P.; Notice of Proposed Changes in FERC Gas Tariff**

September 28, 1998

Take notice that on September 22, 1998, Iroquois Gas Transmission System, L.P. (Iroquois) tendered for filing to become part of its FERC Gas Tariff, First Revised Volume No. 1, the following revised tariff sheets, with an effective date of November 1, 1998:

Sub. Twentieth Revised Sheet No. 4
Sub. Fifth Revised Sheet No. 46
Sub. Second Revised Sheet No. 46A
Sub. Seventh Revised Sheet No. 47

Iroquois states that the instant filing is designed to correct the proposed effective date of its proposal to convert its tariff and rates from a volumetric to a thermal basis. According to Iroquois, TransCanada PipeLines has announced that effective November 1, 1998 it will restate its contracts in terms of energy by using an average heating value for the 1997 calendar year; the heating value for deliveries to Iroquois during that time is 1.011693. Iroquois had inadvertently proposed an effective date of October 17, 1998 for its tariff sheets.

In order to reduce administrative burdens, Iroquois is resubmitting the revised tariff sheets with a November 1, 1998 effective date.

Iroquois states that copies of its filing were served on all jurisdictional customers and interested state commissions.

Any person desiring to protest this filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

David P. Boergers,
Secretary.

BILLING CODE 6717-01-M

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission****[Docket No. RP98-410-001]****Koch Gateway Pipeline Company; Notice of Compliance Filing**

September 28, 1998

Take notice that on September 23, 1998, Koch Gateway Pipeline Company (Koch) tendered for filing as part of its FERC Gas Tariff, Fifth Revised Volume No. 1, the following tariff sheet, to become effective October 19, 1998.

Sixth Revised Sheet No. 1807

Koch filed in compliance with the Commission's Letter Order dated September 22, 1998, the above mentioned tariff sheet to correct a pagination duplication within Koch's September 19, 1998 filing in Docket No. RP98-410. Koch resubmits Sixth Revised Sheet No. 1807 to amend this oversight.

Any person desiring to protest this filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to
